

Cord Sets

Cord sets typically include power cords and power splitters. DC power is the safest method for transferring power – so safe that a professionally installed conduit is not required to protect the wire, as is the case with AC power. Lighting for Impact systems convert the AC power provided from the wall to DC power. Our custom-built cord sets transfer this power throughout the rack/gondola/fixture.

OVERVIEW

Splitters come standard at 10" lengths. Can be provided with any combination of 3-barrel plugs.

Power cords sold in 12" increments up to 10'. Can be provided with any combination of 2-barrel plugs.

Cord color is black; barrel ports are color coordinated by usage.

PVC-insulated wire with tin-plated copper conductor.

Double-molded process for barrel plugs provides longevity.

UL-certified AWM style 1185 wire.

Heavy 16-gauge wire reduces voltage loss over long spans.

Current rating of 8 amps.

Working temp up to 125° F.

BARREL PLUG OPTIONS

Straight Male Plug

(available in 5.5x2.5mm or 5.5x2.1mm)

Right-angle Male Plug

(available in 5.5x2.5mm or 5.5x2.1mm)

Straight Female Plug

(available in 5.5x2.5mm or 5.5x2.1mm)

Lighting for Impact's intuitive design makes it easy to install and maximize power and lighting. DC barrel ports are color coded to help installers differentiate between LED and power ports. This simple design feature ensures correct installation and reduces problems down the road.

Wire Management

Wire management is one of the most important aspects of a long-lasting LED system. Even the best-quality products cannot last in a harsh retail environment without superior wire management.

CLIP STYLE

FEATURES

Twist Clips *Patent Pending

Compatible with 9-11 gauge wire shelf.

Tough polycarbonate plastic.

Used for LED cord on wire shelving.

More professional than zip ties.

Black 
Almond 

Magnetic Boat Cleat

Strong Neodymium magnets firmly attach to any metal surface.

Durable ABS plastic.

Used for power cords or LED wires.

Excess wire can be wrapped around unique clip shape.

Spiral Wire Twist Clips

Compatible with 9-11 gauge wire shelf.

Tough polycarbonate plastic.

Used for spiral LED cord on wire shelving.

More professional than zip ties.

Magnetic Spiral Wire Clips

Strong Neodymium magnets firmly attach to any metal surface.

Durable ABS plastic.

Used for spiral LED cords.

Firmly holds wire onto gondola and out of sight.
