

Panel Light

● Silver
w/white cord

DESCRIPTION:

Lighting for Impact’s fully enclosed illuminated panels are a great solution to project a soft diffused wash of light over a desired display. Used often to illuminate signage or to backlight products, they help attract shoppers to a specific display. These panels are also popular for use by original equipment manufacturers to integrate into fixture and display designs as backlighting, uplighting, and custom signage.

- Custom sizes available — up to 4' x 4'
- Full aluminum frame
- Diffused light
- Low profile — only 1/4" thick
- Durable surface for long-lasting use
- UL Listed
- 5 Year Warranty

SPECIFICATIONS:

Panel Light	
Efficiency:	130 lm/W
LED Chip Type:	SMD 4014
Watts per chip:	0.2W
Lumens per watt:	130 lm/W
Lumens per foot:	513lm
CRI:	≥ 80 Ra
CCT:	5000K Standard
Diodes per foot:	21
Beam angle:	120°
PCB Dimensions:	4.5*0.2mm
Dimmable:	Non Dimmable
Overall thickness:	1/4"
Max Size:	48" x 48"
