BEFORE

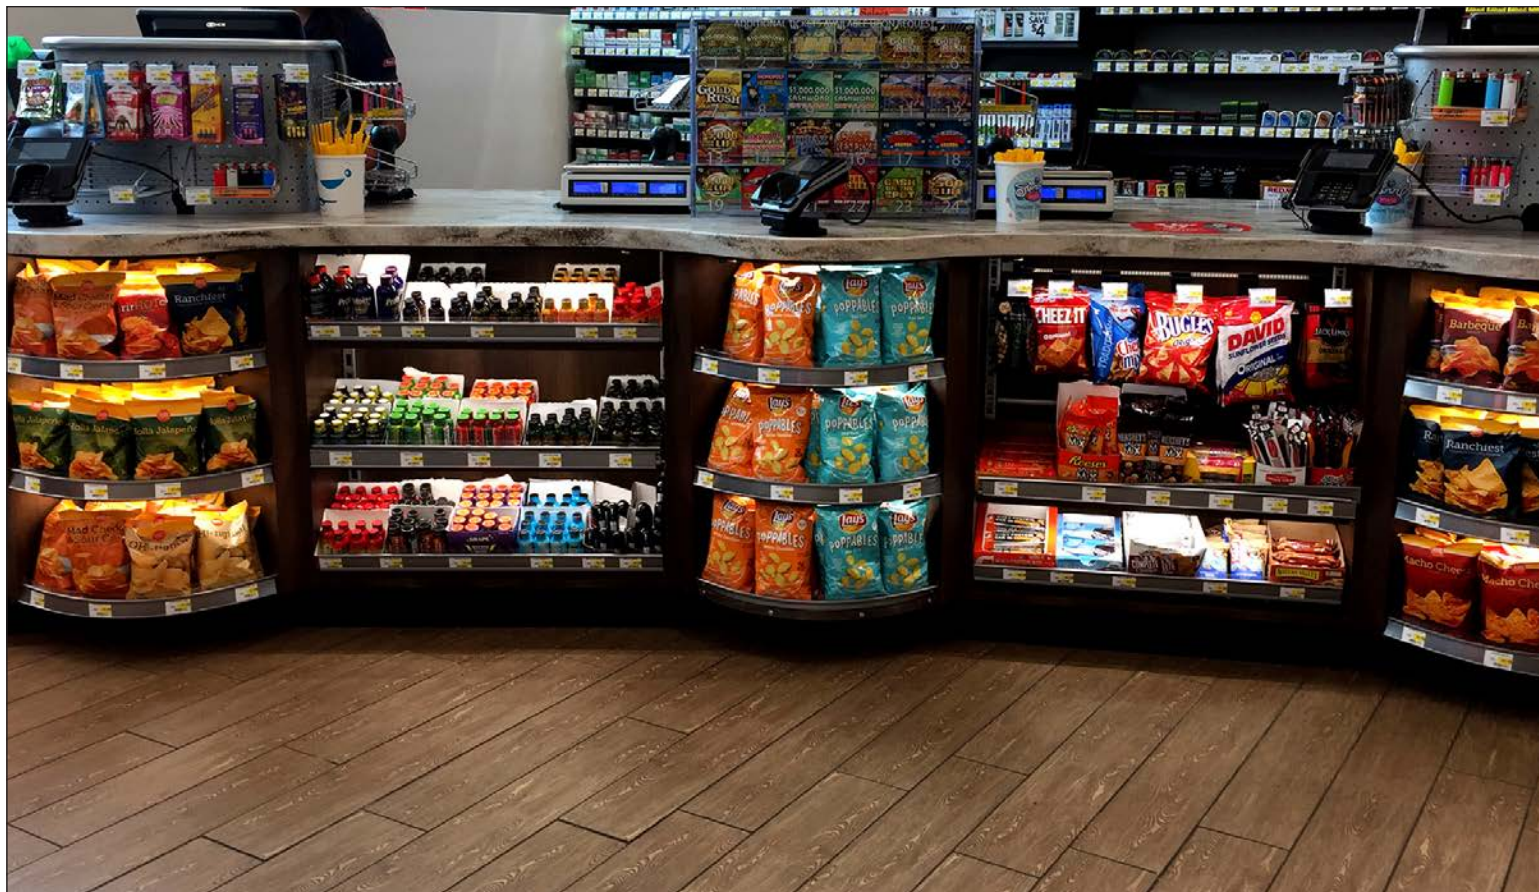

AFTER

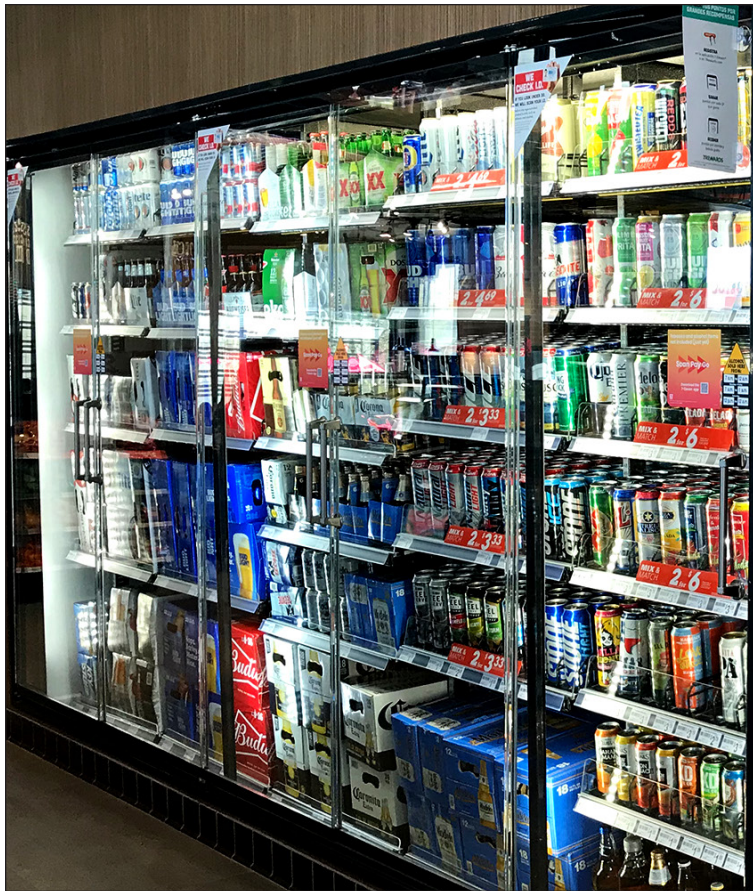

“Lighting has a direct influence on our mood, with 80 percent of the sensory information the brain receives coming from our eyes. Lighting highlights architectural elements, product qualities, and creates virtual spaces — impacting how we feel, what we think of a product — and ultimately, the choice of whether to purchase or not.” — Mihaly Bartha, Head of Lighting at GPstudio

The Six Lighting for Impact Advantages

Custom Design Consultations

Tell us your vision and we'll design a system for you. Layouts feature LED options — including type, intensity, and color. We'll share examples with you.

Quick Customized Quotes

Quote turnaround time is within an industry-leading 2-3 days. Your quote requests can be sent as pictures, engineering drawings, phone calls, floor plans, and more.

Value Engineered Systems

We design to maximize output while minimizing components. Our approach adds value and lowers overall costs, offering a big savings compared to competitive systems.

In-Stock Inventory

Our large on-hand inventory is ready to ship — offering a wide range of components to meet your needs without the wait.

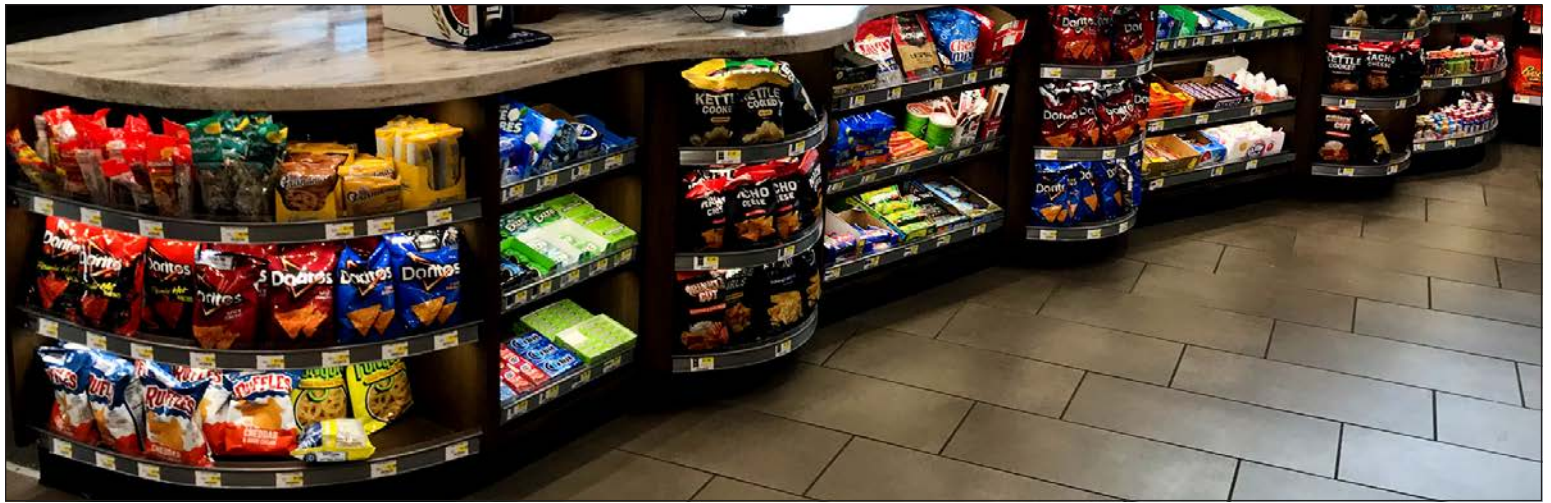

Fast Delivery

We offer an industry leading 2-week lead time on most orders, and expedited processing is available upon request.

Installation Training

Our expert team will train your team how to install and manage the system for the installation process from start to finish.

Affordable. Simple. Dramatic. Effective.

There's never a good reason to delay success... Now's the perfect time to integrate our LED lighting into your creativity and designs. Contact us to discuss your merchandising design projects today!
